QUALITY CHOICES SUITED TO YOUR NEEDS

Communication is very important and we urge you to share with us your dental concerns. We can work together to design a smile you have always longed to have through a treatment plan that is customized to your budget and busy schedule.

Porcelain veneers that replace enamel and give your teeth an unblemished, natural appearance in addition to strengthening the tooth and correcting shades to a more desirable brightness.

We offer to all patients intra-oral cameras and digital cosmetic-imaging software, low-radiation x-rays and chairside appointment scheduling - all in a relaxing environment. Virtual technology enables the patient and dentist to design a personalized "blue print" of a beautiful smile before treatment begins. Let us know if you are interested in hearing about the latest techniques to make your smile healthy and attractive.

WHAT MAKES OUR PRACTICE SPECIAL?

In order to give our patients the best possible care safely and comfortably, we use only materials that are strong, aesthetically pleasing and healthy for our patients and the environment. Key choices we have made in our practice include dental care that is: Mercury-Free, Latex-Free and Pain-Free.

WHAT SERVICES ARE COVERED?
